### DISORDER IN HONDURAS.

American Representative at Ceiba Says  
the Treatment Accorded That Exile  
Is the Worst, and That Soldiers  
Have Pillaged Homes of Poor.

New Orleans, Nov. 18.—The Times-Democrat publishes this telegram from Ceiba, Honduras:

"I will not serve in a country governed by bandits. I tender you my resignation. This was the terse telegram sent by Dr. Virgil Reynolds to Assistant Secretary of State Bacon, state department at Washington, in renouncing his office as American consul at Ceiba. This action was taken after Dr. Reynolds made an investigation of the recent raid of some soldiers of Honduras upon ranches of Dr. Timoteo Miralda, a lawyer, who is an exile from his native land on account of his having been taken a leading part in the revolution against President Davala in July last.

Dr. Reynolds in a letter he wrote the state department said a state of anarchy and misrule existed in Honduras, which is almost indescribable. He detailed a number of instances in which Honduran officials and soldiers pillaged homes of persons of the lower class, but said that after a full investigation of the Miralda outrage he believed that the worst of them all.

## STANDS BY DECISION.

### Texas Supreme Court Refuses to Grant Rehearing.

Austin, Nov. 12.—In the supreme court motions for rehearing were overruled in both the Mertens and Baird school district cases. Thus the last hope the state had in inducing the court to change its decision on this matter, involving the validity of \$3,000,000 of independent school district bonds has vanished.

In overruling the motion in the Baird case the court says that the question of levying a tax of 20 cents on \$100 valuation has never been decided by this court in that case or any other, neither does the certificate present the question of the validity of any bonds issued by any school district in the state and the court has not decided that such bonds would be invalid or to what extent they might be held invalid. In conclusion the court says: "We now hold that the majority of the court correctly held that the bonds proposed to be issued, based upon the illegal levy, should not be issued and that the injunction should be made perpetual as against the issue of those bonds."

In the Mertens case the court maintains that a school district cannot be organized embracing more than one county, consequently the Mertens school district is invalid and contrary to the constitution and even does not come under the new school amendment act adopted.

In the case of the Trinity Life and Annuity society of Dallas vs. Commissioner of Insurance Love the supreme court granted permission to file petition for writ of mandamus. This is the case wherein the society wants to compel the commissioner to issue a permit for it to do business in Texas. The railroad commission issued an order recognizing the groveton, Lufkin and Northern railway to be common carriers. This is the result of the recent inspection. No action was taken on the application for recognition by the Shreveport, Houston and Gulf railway.

Mr. Ed. McClure of the Rentrow Dramatic company was in the city yesterday arranging for the appearance of his company, which will hold the Bryan boards during Thanksgiving week.

### BULLOCK'S WINDOW.

Bunch of Bananas Added to the Collection.

The latest addition to the horticultural display in Bullock's show window, is a bunch of Bryan-raised bananas, contributed Wednesday morning by Mr. Harry Marwills, cut from one of the trees that line the south side of his Main street business property here. The bunch in Bullock's window contains 21 fine, full bananas, some of which are beginning to ripen.

Four years ago Mr. Marwills planted one banana tree. From this one plant, which has multiplied many fold, he has given away 125, and has growing and bearing on the premises already mentioned, 75 trees, which for the past three years have borne steadily. The trees multiply rapidly, the old stalk dying off each year, the multipliers shooting out from around the old root.

Mr. Marwill's banana trees, which line Caldwell street from Main to Bryan, furnish one of the most pleasing views of the city, particularly in the hot summer time, when the deep green of the tropical growth stands in refreshing contrast with the dancing heat that rises and sizzles in the noonday sun.

Traveling men visiting this place, frequently snapshot the glimpse transplanted from the tropics, and carry the view with them for future reference.

### THE COTTON MARKET.

Spot sales in Liverpool Wednesday reached a total of 10,000 bales, which gave an added element of strength to the market on this side, with slightly improved prices.

In the future markets Liverpool opened 1 1/2 points up, but lost the advance before the end of the session, and closed 1 1/2 down.

The American markets opened 2 to 3 points up, New York at one time reaching 14 points above the opening, but slumped off and closed 5 to 6 points above Tuesday night.

New Orleans did not show the strength New York developed but closed 2 to 3 points better than Tuesday.

Bull manipulation is apparent in the future markets and it is believed that Price and Sully have been reinforced by the McFadden interests in a move for higher prices.

There seems to be no big spot demand, for forward commitments. The principal purchasers of spot cotton at present are the interior shorts, and this interest appears to be large.

A slight revision is noted in the Bryan spot quotations:

Strict low middling, 8 3-16c.  
Middling, 8 9-16c.  
Strict middling, 8 3-4c.  
Good middling, 8 15-16c.  
Sales yesterday, 100 bales.  
Liverpool is due 3 to 4 points up this morning.

Laporte, Ind., Nov. 17.—That Ray-Lamphere confessed intimacy with Mrs. Gunness; that he chased Andrew Belbein with a gun and Mrs. Gunness promised to marry Lamphere when he joined some secret society and took out insurance, were sensational features of the testimony of William Slater, a friend and neighbor of defendant.

Chicago, Nov. 17.—Suit for forfeiture to the government of property valued at \$82,000, said to belong to Mrs. "Jack" Gardner of Boston and alleged to be smuggled into this country from England by Mrs. Emily Crane Chadbourne, was begun in the United States district court by United States District Attorney Sims.

### Kentucky Bank Closes.

Washington, Nov. 17.—The comptroller of the currency has been advised of the closing of the doors of the Citizens' National bank of Monticello, Ky., on account of a shortage of over \$20,000 in cashiers' department. The bank had a capital stock of \$50,000 and total resources of about \$194,000.

### Labor Unions Will Stay Out.

Ennis, Tex., Nov. 17.—An order was received here forbidding all labor organizations from renting any part of a large new three-story hall now nearing completion because the contractor used non-union labor. Several unions had planned to become tenants.

If a majority of the people of Texas want compulsory education, let them have it. But it is rank socialism, all the same.

Spasmodic efforts in any line rarely accomplish any permanent good. It is keeping everlastingly at it that does the work.

The contractors and builders of battleships still persist in circulating statements that war between America and Japan is inevitable.

The word "alfalfa" is of Arabic origin and originally meant "the best fodder." No more appropriate name was ever applied to anything.

Some Bryan boys need to learn that sidewalks are for the people, not for horses. If the city police has to teach them the tuition fee might be expensive.

This glorious weaher is hard on the man who tries to run a gloom shop or a grouch factory. Quit your foolishness and join the prosperity jubilee band.

Miss Elkins denies the engagement, but blushes and smiles while talking about the duke. No wonder people persist in believing there is something in it.

Commerce, like all physical forces, follows the line of least resistance. It is easier to haul any sort of a load over a good road than over a bad one.

Texas newspapers have opened the early Christmas shopping campaign. Those who are beguiled by their sophistries will miss all the fun of the pushing and scrounging on Christmas eve.

There is hardly a product of the farm that does not cost more to bring it to the railroad station than it get it carried across the continent by rail. Yet some farmers are content with bad roads.

Every good citizen feels almost as keenly as a personal insult an aspersions of his home town or county. The fellow who says nasty things about his home is like the obscene bird that befouls its own nest.

A Chicago professor says the Mount Builders played football. Possibly this explains why the Carlisle and Haskell Indians generally wotop their antagonists on the gridiron—skill in football is a heredity.

The farmer who turns his face from the setting to the rising sun, who accepts the fact that the age of all-cotton has passed and that the age of diversified farming has begun, is the farmer who will scoop in the profits.

Li Sum is the name of a Chinese editor now touring this country and giving out interviews about affairs in his native land. A careful reading of his statements impress one that he tries to tell the truth, notwithstanding his name.

For the first time in his reign, the Kaiser has admitted that discretion is the better part of valor, even for an emperor, and has promised to behave himself. It is probable, though, that this concession will not arrest the movement to make the Geerman ministry responsible to the parliament instead of to the Kaiser.

Col. John W. Gates of New York and Texas and Col. Sam Park of Beaumont have determined to build a wagon road from New Orleans to San Antonio, on condition that the National good roads association will co-operate. We understand this to mean that the National Good Roads association is expected to pay most of the expense.

One of the greatest needs of the South is a thorough and radical reform in the methods of ginning, baling and handling cotton. Cotton farmers are losing millions of dollars annually through the waste in these processes, and they will continue to lose as long as they remain indifferent. They should demand a change

**SENSATIONAL DIVORCE.**  
Mrs. Batonyi Sues for Separation, and Interesting Details Anticipated.  
Special to Bryan Morning Eagle.  
New York, Nov. 18.—Society is looking forward to some spicy revelations in the trial of the divorce suit brought by Mrs. Frances Work-Burke-Roche Batonyi against her husband, Aurel Batonyi, the Austrian coach driver whom she married shortly after her divorce from Burke-Roche, her English husband. The case was called for trial today in open court. At the same time, Batonyi's counter-suit, in which he makes various charges against his wife, will be tried.

**The Secret Marriage Disclosed.**  
It was about two years ago that society throughout the East was startled to learn that Mrs. Burke-Roche, one of the handsomest women in the "Four Hundred," noted horse-woman, whip and breeder of prize toy bull terriers, had been for almost a year the wife of Batonyi, the famous professional whip. The marriage took place Aug. 9, 1905, at the Hotel Empire in this city, but it was not until a year later that it was publicly announced. Then the couple went to Europe for a while and upon their return took up their residence at Newport.

**Was Former Wife of a Nobleman.**  
Prior to her marriage to Batonyi, Mrs. Roche, as she preferred to be called, had figured considerable in the newspapers. She was conspicuous in society on account of her wealth, beauty and love of sport. As Miss Frances Work she was a great belle in this city, and when she went abroad in 1880, she met the Hon. James Boothby Burke-Roche, brother of the present Baron Fermoy, and next in line of succession. They were married, but the marriage proved an unhappy one, and in 1890, Mrs. Roche obtained a divorce in Delaware, with the custody of her three children. Her daughter, Miss Cynthia Roche, a great belle and one of the most attractive young women in society here and in Newport, married in 1906 Arthur Scott Burden, youngest son of Mr. and Mrs. James A. Burden. The wedding, attended by all society, was one of the most brilliant held in New York in recent years.

**Expenses Not Less Than \$375 a Day.**  
When she divorced her husband, her father, a millionaire horseman, noted for his eccentricities, made her an allowance. Her habit of exceeding it caused frequent quarrels and estrangements with her father. She announced at one time that she could not possibly live on less than \$375 a day, and Mr. Work, wealthy though he was, did not see his way clear to allow her that amount.

**The Man on the Box.**  
It was Mrs. Roche's love for all kinds of outdoor sports that led to her acquaintance with Batonyi. The handsome Hungarian had been a professional whip and instructor of driving to the "Four Hundred" for years. He became Mrs. Roche's teacher and their courtship was carried on the box of the coach, "Good Times," while one of them handled the lines and the whip and the other occupied the box seat. Batonyi made love as well as he drove, and he taught Mrs. Roche the latter accomplishment, at least, so thoroughly that she soon became noted as an amateur whip, driving her four-in-hand about Newport and vicinity.

**Batonyi's Threat.**  
The trouble between bride and bridegroom, however, began almost as soon as their marriage became known. The union was very distasteful to Mrs. Roche's father and he did not seek to hide his sentiments in the matter. He promptly announced that his daughter's allowance was cut off and intimated that the couple would find it rather hard sledding to get along without his help. Subsequent developments proved that his prophecy was correct. Mr. and Mrs. Batonyi lived quietly enough for a time on a small place near Newport owned by Mrs. Batonyi. Mr. Work did not relent in his attitude and the couple soon found themselves short of funds. Through the intercession of her brothers, a reconciliation was effected between Mr. Work and his daughter on condition that the latter leave her husband. She did so and brought the present suit for divorce on grounds of non-support and other charges. Batonyi retaliated by bringing a counter-suit and threatening to drag a number of well-known Newporters into the scandal. He also brought suit against his wife's father and brothers for alienation.

**GOES AT TERRIFIC SPEED.**  
While Car Dashes Around Curve at Sixty-Mile Clip Tire Explodes, Another One Likewise and the Result Seen a Total Wreck.

Birmingham, Nov. 17.—In the Bennett, the car making a speed of more than sixty miles an hour, in an effort to lower the twenty-four mile automobile record, Emile Stricker was almost instantly killed on the fair grounds track. Leon Barrows of Birmingham, who was in the car with Stricker, was seriously hurt.

Stricker and Stricker had been making an effort to lower the record, beginning at 8 o'clock Monday night, being relieved by Stricker at 12:43 o'clock Tuesday morning. Stricker began by making a terrific speed. The track was poorly lighted and when the car dashed around the curve at the west end of the track, a tire exploded, followed quickly by the explosion of a second tire and in a twinkling the car was a total wreck. Stricker was found face downward on the track and Barrows was picked up and carried to a hospital. Stricker dying before medical aid reached him. Stricker was a native of Alsace-Lorraine, Germany. He was a bosom friend of Strang.

Stricker was scheduled to drive a car in the grand prize automobile race at Savannah on Thanksgiving day. Stricker was also entered as a driver in the grand prize races.

**Foreign Missionary Work.**  
Chicago, Nov. 17.—Missionary work in foreign lands occupied the attention of the first annual Catholic Missionary congress Tuesday. In the morning session, over which Archbishop Messmer of Milwaukee, was called to preside, the duty of church workers for the social uplifting of mankind was considered.

"Caring For Homeless Men" was the subject set down for Rev. Timothy Dowdsey, founder of "Father Dempsey's hotel," St. Louis. This was followed by a discussion of "Truth Societies and Their Influence," by Rev. McGinnis, founder and president of the Interdenominational Catholic Truth society of Brooklyn.

**Both Bodies Busy.**  
Pittsburg, Pa., Nov. 17.—The time was fully occupied by the important business that confronted the officers and delegates attending the National Municipal league and American Civic association when the second day's session convened.

The National Municipal league met in the rooms of the Pittsburg chamber of commerce. A business meeting opened the session and it was followed by reports of the secretary and treasurer. The morning session of the American Civic association opened at the same time in the parish house of Trinity Episcopal church. This organization held a conference on nuisances throughout the United States.

**No One Encouraged Haas.**  
San Francisco, Nov. 17.—In an effort to establish more clearly the motive of Morris Haas, the rejected trial juror, who shot and seriously wounded Prosecutor Heney, the police have renewed examination of Mrs. Miriam Kohn, his friend and neighbor, to whom Haas confided his intention of killing the officer who exposed his criminal record.

"Did Haas ever say anybody was encouraging or advising him to kill Heney?"

To this Mrs. Kohn replied: "No; not in the least."

It is expected the examination begun by the police will be taken up by Special Agent Burns.

**Sharply Criticized.**  
Waco, Nov. 17.—Dr. G. B. Winton, editor of the Nashville Christian Advocate, was sharply criticised by the book periodical committee of the Northwest Texas Methodist conference. It is alleged certain writings are unsound Methodism. The report as adopted called upon him to cease such publications.

The committee on proposed division of Northwest conference elected J. M. Barcus chairman. A historical society was formed for the purpose of writing a history of Texas Methodism.

**Proposals Accepted.**  
Berlin, Nov. 17.—Emperor William and Chancellor von Buelow were in conference for three-quarters of an hour in the new palace at Potsdam. His majesty accepted the proposals made by the chancellor concerning the future conduct of state affairs, and it is evident that Prince von Buelow will remain in office. The understanding reached by the chancellor and emperor was satisfactory.

**Only Through Chancellor.**  
Berlin, Nov. 17.—Chancellor von Buelow, in the course of his interview with the emperor at Potsdam, asked his majesty for a declaration, together with his permission to publish the same, to the effect that in future the emperor will deal with state affairs only through existing constitutional channels—namely, through the chancellor. His majesty acceded to this request and the declaration asked for appears in the Reichs Anzeiger.

New Orleans, Nov. 17.—With several hundred delegates from all sections of the country in attendance, the American Humane association opened its thirty-second annual convention at Athenaeum. The gathering is made up of persons interested in anti-cruelty work in behalf of both children and animals.

**25 YEARS OF STANDARD TIME.**  
Washington, D. C., Nov. 18.—Twenty-five years ago today took place that world-wide revolution in measuring time—the adoption of the standard method in the United States, whose example was followed later by other civilized countries. Previous to November 18, 1883, the methods of measuring time in this country were so varied and so numerous as to be ludicrous. There were fifty different standards used in the United States from coast to coast, and on one road between New York and Boston, whose actual difference is twelve minutes, there were three distinct standards of time.

**Editors and Printers Flee.**  
New York, Nov. 18.—The editorial were damaged by fire and water Friday morning to such an extent that the staff of reporters and composers who were engaged in getting out the morning's issue of the paper were compelled to flee to the street.

**Over Three Hundred Perish.**  
Hamm, Germany, Nov. 18.—Thirty-seven bodies were taken from the Rabed mine, in which an explosion occurred. Thirty-five were brought out uninjured. It is believed the remaining 302 have perished.

#### Injured in Runaway.

Mr. John Ransom, residing some  
ten miles in the country, was painfully  
injured Wednesday afternoon as a re-  
sult of having his team run away  
with him, and throwing him from his  
wagon to the ground. A physician

injuries were very painful, it is not  
believed they are serious.

#### Football Today.

Indications are that a good game of  
football will be played on the A. & M.  
gridiron this afternoon between the  
A. & M. boys and the Southwestern  
University eleven. The latter team de-  
feated the Varsity eleven in a game  
played just before Varsity defeated  
A. & M. at Houston.

A telephone message from College  
yesterday afternoon brings the infor-  
mation that all the star players of the

A. & M. club will be in their proper  
position during the game today, and a  
fine exhibition will no doubt be given.

The game will be called at 4 o'clock,  
and a large attendance from Bryan  
will doubtless be present.

So far as the talent here is able  
to determine, one club has no ad-  
vantage over the other.

## HUSBANDS IN HARD LUCK.

### Judge Rules Wives May Search Their Pockets.

Washington, Nov. 18.—This interesting decision has been made:

A woman has some rights and they include the searching of her husband's pockets, according to a decision of Judge Muldowney of the District of Columbia police court. "It shows the interest a woman has in you," the court held. "It shows she loves you. A woman who does not go through the pockets of her husband does not love him." The defendant, George Ridgway, was arrested on his wife's complaint that he threatened to knock her head off and objected to his wife taking liberties with his pockets while he slept.

### Several Not to Testify.

Lafayette, Ind., Nov. 18.—Associate Counsel Sutherland at the state attorney's office announced the state would not use a number of witnesses originally subpoenaed in the trial of Ray Lamphere for the murder of Mrs. Guinness because he felt certain the propositions had already been fully established and further evidence along these lines would be superfluous.

From a statement made by counsel for the defense it became known attorneys for Lamphere will not be worried if the state does prove Lamphere set fire to the house, for the contention of the defense now is Mrs. Guinness disposed of her children and then committed suicide and all were dead before the house was burned. Consequently, they say, even if Lamphere fired it, the jury will have to acquit him, under these circumstances of murder. The jury cannot find him guilty of arson, it is said.

### Two In Session.

Memphis, Nov. 18.—Delegates representing the National Hardware Jobbers' association and American Hardware Manufacturers' association are in attendance upon the session of the bodies. All regular sessions of both organizations are executive. The National Hardware association held an two bodies, which are holding sessions open meeting at 10 o'clock Wednesday, delegates and visitors being present. Delegates of the American Hardware Manufacturers' association attended this meeting in a body. A welcome address was delivered and annual reports of President Wright and the secretary read. Reports were followed by addresses on technical subjects. Both associations in the afternoon went into executive session.

### Broke All Records.

Manila, Nov. 18.—It is unofficially stated the battleship Nebraska during the target practice now in progress, broke all records established by any navy in the world for marksmanship with twelve-inch guns. While the figures are not obtainable it is believed the Nebraska's crew surpassed all records for both speed and accuracy.

### Two Fatalities Result.

New York, Nov. 18.—Carl Heinrich and Henry Bauman, employed by the Interborough Rapid Transit company, were killed and two others seriously injured when a derrick work train collided with an overhead bridge on the Sixth Avenue Elevated railroad at Thirty-third street. The boom of the derrick was torn off by the force of the collision and dropped down on the men riding on the work train.

### Fourteen Resume Payment.

Pekin, Nov. 18.—Fourteen native banks that suspended payment a few days ago have reopened and are paying out money from funds supplied by the government for the purpose of tidings them over the panic. They are under police supervision. Payments are to continue for five days.

### Anti-Football Ordinance.

Chicago, Nov. 17.—Alderman Kruger introduced in the city council the following. "Be it ordered that the corporation counsel be and is hereby ordered to appear and submit to this council at its next meeting an ordinance prohibiting the playing of football in the city of Chicago."

The motion provoked laughter, hoots and cheers. It was referred to the judiciary committee.

## LYDIA THOMPSON GONE.

### Long-Time Footlight Favorite Is Numbered With Dead.

London, Nov. 18.—A long-ago footlight favorite has departed this life. Lydia Thompson, perhaps the most famous burlesque actress of her time, died suddenly at her home in Westminster mansions, near Westminster abbey, London. The news was sent to New York in a cablegram to her daughter, Zeffie Tilbury, herself an actress, who is the wife of L. F. Woodthorp, stage manager for Nat Goodwin.

Probably no other woman of the English stage, either in the serious or frivolous phases of the drama, excited such a furore in the United States as did Lydia Thompson when she first came here in 1868. Her reputation had preceded her, however, for she already had made a triumphal tour of the chief capitals of Europe. Born Feb. 19, 1836, she first earned a reputation as a dancer in fairy spectacles and burlesque as far back as 1852 at Her Majesty's theater, London.

The following year she began her dramatic career in pantomime at the Haymarket theater and in 1856 she toured Europe, where she won such favor that in many cities she was serenaded and escorted by torchlight parades.

Her success in this country may be indicated by the fact that when she was at Cincinnati, even the bootblacks subscribed their dimes to present a silver wreath to her. Although the name in America has been largely identified with "The Black Crook," the fact is that extravaganzas was produced in America two years before her first visit. With her on that visit came Ada Harland, afterward the wife of Professor Brander Matthews; Pauline Markham, Liza Weber, Alexander Henderson, the manager who afterward married Miss Thompson, and Harry Peckett, actor and musical director. Besides those already named there were several Americans in the cast, among them Grace Lowdeon and Sol Smith Russell.

The women of the company were dubbed "The British Blondes," because they all wore blonde wigs, and that name stuck to them.

After three years spent in America Miss Thompson went back to England to procure new costumes. On her return here she brought with her Rose Coghlan and Eliza Wethersby, afterward the wife of Nat Goodwin.

In all Miss Thompson made four visits to this country. She estimated that she earned fully \$500,000 on her American tours, but she often said that she only received about \$50,000 being robbed of the rest by persons whom she trusted.

### TENNESSEE TROUBLES.

Governor Makes Reference to Them in Thanksgiving Proclamation.

Nashville, Nov. 18.—In his Thanksgiving proclamation Governor Patterson made the following reference to the troubles that now vex this city and state:

"But in the midst of our prosperity there are clouds which darken the sky and cast their shadows athwart our path. Let us hope that these will presently pass away, and that the same Divine hand which gathered them will scatter them again, and the warning has been taken, and all our people learn again the lesson which some forget, that in law is our nearest hope, and that only in obedience to its eternal commands can we live in social order enduring peace and fulfill the high mission of civilized life. Let us so live that good will and gentle peace may come down from heaven to bless us all, that justice shall reign among us, that we be saved from intolerance, dissensions and suspicion, and from the evils which flow therefrom to vex the state and divide the people."

"Let us pray that mercy will bring her balm of healing and bind up the wounds of bleeding hearts wherever they may be, that innocence will not suffer, that our land be washed of bloody stains, that we may have faith and hope and charity and not forget the gentle Son of God taught that charity is the greatest of these."

### Mrs Eastman Again Weds.

Asheville, N. C., Nov. 18.—Mrs. Sophie Harrison Eastman, daughter of the late Carter Harrison, former mayor of Chicago, was married here to Baker E. Edwards of Norfolk, Va. The ceremony was performed by a justice of the peace in the offices of the attorney, who has been conducting Mrs. Eastman's suit against Colonel R. S. McBee.

### Poison In Chicken Hash.

New York, Nov. 18.—Chicken hash served in the New York Ear and Eye infirmary has resulted in forty-five private patients and the entire staff of thirty-five nurses being attacked with ptomaine poisoning. The charity patients and the physicians did not have chicken on the occasion and are rejoicing. None of the cases are serious, however.

### Duval Succeeds Weston.

Washington, Nov. 18.—Major General Duval has been selected to succeed Major General Weston in command of the troops in the Philippines. General Duval is assistant chief of staff and that position will probably be filled by General Thomas Barry, now in command of the American army in Cuba.

### Cooper's Nephew Resigns.

Nashville, Nov. 19.—A late development in the Carmack case is the resignation of Albert Stockell as assistant to Attorney General McCann. Young Stockell is a nephew of Colonel Duncan Cooper.

### Meets at Waco.

Austin, Nov. 18.—State Tax Assessors' association holds its convention at Waco Dec. 14 and 15.

### Gasser a Success.

Huntsville, Ala., Nov. 18.—New gas well in West Huntsville is a paying proposition.
